OUR AGENCY

For 25 years we have been specialists in the design of exhibitions, stands, layout and graphics. Prosigma takes charge of your project as a whole (design, manufacturing, follow-up, etc.). It is a single contact who accompanies you throughout your course, knowing how to talk to you about concept, technique and budget.

Design, production and logistics

TRANSPORT

- Development of a network of partners, in France and abroad
- Optimized event management to reduce transport distances and CO₂ emissions

COATING

- Implementation of REACH regulations
- Use for laying of adhesive without neoprene glue

PAINTING

- Implementation of REACH regulations
- Use of recycled polymer cans
- Painting responding to European eco-labels and labels (ISO 16000)

WOODWORKING

- Use of wood produced in an eco-responsible way and certified PEFC & FSC
- ISO 50.001 / ISO 14.001 / EMAS standards and certificates
- Storable, modular and re-expandable structures
- Use of other materials than wood

ELECTRICITY

- Use of lighting systems according to market developments to reduce electrical consumption during the events
- Reduction of electrical orders over the last years

INTERNAL

- Jappalnté Association
- All our employees are trained in safety and hygiene standards
- First aid training

JAPPALENTÉ

The **Jappalanté** association, created 8 years ago by Prosigma, aims to provide assistance for the development of villages in Senegal by providing the resources and technological means necessary to develop sustainable and autonomous agriculture.

JAPALANTÉ ASSOCIATION
SENEGAL

Founded in 2012.

Merci, à bientôt*
